DETAILED ACTION

The outstanding prior art rejections are withdrawn since the applied references fail to teach, or provide a reason for adding, the recycling means, as amended.

However, it is for that proposition that the examiner enters the following new ground of rejection, necessitated by applicant's amendment:

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 11-17 are rejected under 35 U.S.C. 103(a) as being unpatentable over US 6410804 to Levin et al. (Levin).

Levin teaches reactive distillation columns, such as those referred to in figure 1:

FIG. 1

wherein an acetone stream can be withdrawn, treated in a heat exchanger and recycled back to the system, see example I, column 8, lines 14+. The difference between the apparatus set forth in Levin and the apparatus covered in the rejected claims, is the presence of nozzles, which are commonplace for effective injection of reagents.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not

Art Unit: 1621

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
